STATISTICAL SUMMARY, LOCAL AUTHORITY AREAS, QUEENSLAND

This publication contains a summary of recent statistics available for separate Local Authority Areas

Contents Symbols Page 3 Notes to Tables Pages 3 to 5 Indexes Pages 6 and 7 Table 1 : Area Population and Dwellings Births, Deaths, Infant Deaths, and Natural Increases Pages 8 to 33 Building Factories Retail Establishments Schools Table 2 : Rural Industry Area of Crops Pages 34 to 51 Production of Crops Gross Value of Primary Production Table 3 : Fertiliser Applied Irrigation Livestock Wool Milk Production Pages 52 to 69 Public Hospitals Local Government Roads Motor Vehicle Registrations

Details of the items listed in Table 1 are available for Statistical Areas in the City of Brisbane. The column headings on pages 8 to 15 show these Statistical Areas in their various suburban groupings, the totals for which are enclosed within double rules with headings in capital letters, and the figures shown therein add through to the City of Brisbane total shown on page 16. Elsewhere in the bulletin details for each Local Authority Area are grouped in their respective Statistical Divisions, with a total column for each Statistical Division which is enclosed within double rules with heading in capital letters. The Brisbane Statistical Division includes the Cities of Brisbane, Ipswich, and Redcliffe, and parts of the Shires of Albert, Beaudesert, Caboolture, Moreton, Pine Rivers, and Redland. The remaining portions of these Shires form part of the Moreton Statistical Division. However, totals for each of these Shires are shown in this publication (see note (g) on page 3). Alphabetical indexes for Local Authority Areas, Statistical Divisions, and Brisbane Statistical Areas are shown, with page references, on pages 6 and 7.

Traffic Accidents

In general, statistics for unincorporated areas are included with those for the nearest Local Authority Area. Exceptions are shown in note (j) on page 4.

The estimated numbers of dwellings at 30 June 1969 include all occupied and unoccupied private houses and flats, and the principal parts of shared houses

and flats. Multi-story apartments, flats, home units, etc. are counted according to the number of individual units. Huts, tents, rooms, and apartments which are not self-contained are excluded.

In Building Statistics, the figures for Building Approvals and Dwellings Approved include all approvals to carry out building operations granted by Local Authorities, as well as all building work authorised by governmental authorities exempt from Local Authority regulations.

In connection with Factory Statistics, the following definitions and explanations should be noted:

Factory: For statistical purposes a factory is defined as an establishment engaged in making or repairing articles, in which four or more workers are employed, or where some form of mechanical power is used.

Workers: All persons employed in the manufacturing activities of the factory are counted as factory workers. The figure shown is the aggregate of the average number of persons employed in each factory during its period of operations (whether the whole or only part of the year).

Salaries and Wages: The amounts shown exclude drawings of working proprietors.

Value of Output: The value of factory output is the value of goods manufactured, or their value after passing through the particular process of manufacture, and includes the amount received for repair work, work done on commission, and receipts for other factory work.

Value of Production: This is the value added to raw materials by the process of manufacturing \circ

Value of Land and Buildings, Plant and Machinery: The capital values shown are depreciated book values at 30 June 1968.

For statistics of primary production, any production within the boundaries of cities and towns (with the exception of Brisbane and Mount Isa Cities which are shown separately) is included with that of contiguous shires as under:

City or Town	Shire in which included	City or Town	Shire in which included
Bundaberg Cairns Charters Towers Dalby Gladstone Gold Coast Goondiwindi Gympie Ipswich	Woongarra Mulgrave Dalrymple Wambo Calliope Albert Waggamba Widgee Moreton	Mackay Maryborough Redcliffe Rockhampton Roma Thursday Island Toowoomba Townsville Warwick	Pioneer Burrum Pine Rivers Livingstone Bungil Cook Cambooya Thuringowa Glengallan

Maps showing Local Authority Areas of Queensland (including an enlargement for South-Eastern Queensland) and Statistical Areas of the Brisbane Statistical Division are attached to this summary for convenient reference (see pages 70, 71, and 72).

Notes to tables are all grouped on pages 3 to 5.

Discrepancies between the sum of the constituent items and the total, as shown in some aggregations, are due to rounding.

SYMBOLS INDICATING DATE OR PERIOD

The dates at which, or periods for which, the statistics are published vary, and are indicated by signs against each item, as follows:

* At, or during year ended, 30 June 1969

At, or during year ended, 31 December 1969

At, or during year ended, 30 June 1962 + At, or during year ended, 31 March 1969

Season, or year, nearest to year ended 30 June 1969

++ At, or during year ended, 30 June 1968 xx At 1 August 1969

NOTES TO TABLES

- (a) Population figures to 1966 exclude, and after 1966 include, full-blood Aborigines.
- (b) Excess of births over deaths.
- (c) Excluding Heat, Light, and Power Works.
- (d) As individual statistical returns are confidential, statistics are not available for separate publication where there are less than three informants, or where there is one major, combined with a number of minor, informants. In Table 1 factory statistics, other than numbers of establishments, have been combined for the following areas and are shown in total in the column for the first-mentioned area:

Ashgrove - The Gap Aspley - Bald Hills Indooroopilly - Kenmore Redland - Pine Rivers Kolan - Perry Gooburrum - Woongarra

Quilpie - Bulloo Livingstone - Broadsound Longreach - Peak Downs Isisford - Barcoo, Boulia McKinlay - Carpentaria

- (e) Not available for separate publication but included in Division totals.
- (f) Public hospitals other than those under hospitals boards are included as under:

General: Brisbane Mater Children's

Mater Misericordiae

Mount Olivet

Gold Coast Greenhaven Toowoomba

St Vincent's ..

Wesley

Townsville .. Fantome Island Lazaret

Maternity: Brisbane Mater Mothers'

Toowoomba St Vincent's . .

- (g) As noted on page 1, six shires are partly in Brisbane Statistical Division and partly in Moreton Statistical Division but, in order to show complete shire totals, statistics for each of these shires have been listed in the Brisbane Statistical Division section. However, for Statistical Division total purposes most items have been dissected and allocated to their correct Statistical Division. For this reason, with the exception of Local Government and Roads in Table 3, the sum of the Local Authorities in Brisbane or Moreton Statistical Division will not agree with the relevant item total shown for the Statistical Division. As it has not been possible to dissect the Local Government and Roads statistics on a Statistical Division basis, complete statistics for these items have been included in the Brisbane Statistical Division total.
- (h) Included with contiguous shire. See detailed explanation on page 2.
- (i) Including 1 factory on Russell Island (unincorporated).

(j) Including statistics for unincorporated areas in Statistical Divisions as follows:

From 1 July 1963, part of the Shire of Cloncurry, including Mount Isa, was transferred to the Shire of Barkly Tableland which was renamed Mount Isa Shire. Mount Isa Shire was constituted a City on 30 May 1968. Statistics of retail establishments resulting from the Census of Retail Establishments of 1961-62 relate to the former Shires and are not applicable to the present City of Mount Isa and Shire of Cloncurry. Details are set out below.

Including details for former Shires of Barkly Tableland and Cloncurry.

Included in "Other Brisbane City".

Including 10 square miles of Brisbane River not included within statistical areas.
